SUMMARY

User experience designer with 2+ years of work experience designing and shipping web and mobile products. Passionate about design and its potential for positive impacts on society.

EXPERIENCE

5/2018 - 6/2018 **Pro bono UX/UI Designer, Ravenswood Pediatric Clinic, East Palo Alto, CA**
Designing an app to improve nutrition in low-income families in the Bay Area

5/2017 - 3/2018 **UX/UI Designer/Programmer, Showapp, Palo Alto, CA**
Designed and coded web application using HTML, CSS, Javascript (React) and MongoDB. This web application generates free landing pages for startups in seconds.

3/2017 - 5/2017 **UX/UI Designer/Programmer, App Development, Palo Alto, CA**
Designed, developed and shipped two games for iOS and Android using Javascript (Unity), in addition to a book recommendation app for iOS using Swift (Xcode).

6/2016 - 4/2017 **UX/UI Designer / Product Manager, Antsquare, San Jose, CA**
Designed the Antsquare app, a local discovery marketplace from scratch, focused on user-centered thinking. Created through close collaboration with engineers, marketers, and business developers. Antsquare is an intuitive C2C platform that combines social media features such as feeds, posting, sharing and messaging, with e-commerce functions such as buying, selling and money transfer.
